

BAE SERVICE opens a new branch: a further addition to the customs service offering in Rouen

Customs service provider **BAE SERVICE**,

opened a branch in Rouen at the end of 2021, enabling it to enhance its market presence and proximity to local freight forwarders and consolidators.

►► Backed by its 4 branch offices and 24 customs clearance facilities in France and in Europe, the goal of BAE SERVICE is to become a major player in customs brokerage in France.

BAE SERVICE: the advantages of an exclusive customs service provider

- Just one activity: managing customs clearance formalities
- Expertise in customs solutions for imports & exports
- A business independent of haulage companies
- Total neutrality vis-à-vis its customers

"Our development strategy involves our offering a local service – in Rouen in the present instance – for greater proximity to our customers and in-depth knowledge of how the main customs clearance facilities operate. We are completely neutral and independent, responding to all types of requests, always endeavouring to adapt to our partners' requirements while at the same time adhering to the regulations."

Estéban Renault, General Manager BAE SERVICE

"The arrival of this new player will facilitate the customs procedures of HAROPA PORT's customers with total transparency by simplifying their use of maritime transportation solutions for imports and exports in Rouen. This differentiated offering supplements the services proposed by logisticians and forwarding agents at the port, making it possible to offer major importers and exporters comprehensive, end-to-end logistics solutions."

Olivier Ferrand, Flows & Sectors Director HAROPA PORT
